Overdraft,	\$126.73

It required \$285.75 more than the joint fund to complete the West Bath road. The state highway department assumed \$80.00 of this sum, but having no fund from which to allot an additional apportionment to state aid construction work, they apportioned \$80.00 additional to the state aid maintenance fund and allowed the town to charge \$80.00 of construction work to that account, as shown under Detail 10. This left an overdraft of \$205.75, of which \$79.02 was given in the form of labor by residents of West Bath, and \$126.73 paid by the town.

## REPORT OF THE SUPERINTENDENT OF SCHOOLS.

*To the School Board and Citizens of the Bath Town School District:*

I am presenting for your consideration my eleventh annual report.

The names of the teachers for the present year with the total enrollment in each school follows: Carbee, Eleanor Nichols, 17 pupils; Hibbard, Thelma Nichols, 17 pupils; Pettyboro, Ruth Nelson, 17 pupils; Swiftwater, Josephine Bruce and Cora Fox, 27 pupils; Nutter, Grace Winchester, 7 pupils. In addition there are twenty pupils attending high schools, six attending junior high schools, and two in the grades outside the district. The district pays the tuition of all but one grade pupil.

It will be noted that the Nutter school is very small. I recommend that the School Board seriously consider closing this school another year and divide the few pupils between Bath Union school and Swiftwater. A school of this size is expensive and the children usually progress more rapidly where the classes are larger and the competition greater.

Walter Campbell, Roland Campbell, Grace Carr, Norman Carr, Jennie Hokenson, Lettie Hunt, and Bernard Peters were neither absent nor tardy during the year. Swiftwater with its large enrollment had but two tardy marks during the entire year, an unusually good record.

Karl Rollins, Ruth Reed, Dorothy Whitecomb, Lionel Grenier, and Lettie Hunt completed the work of the eighth grade in June. Three of these are now in high school.

During the fall term the medical inspection was again made by the school nurse, Miss Underhill. It was found that, out of a possible fifty-seven, twenty-one defects had been remedied since the last examination. The teachers, too, are making an earnest attempt to teach the most important health habits and good results are noticeable.

This current school year the district will receive from the state for its share of state aid \$2,046.14. The finances of the district are in a satisfactory condition.

The school building at Swiftwater was shingled during the summer and material purchased for fencing the school grounds at Swiftwater and Pettyboro. Only a few other little repairs have been made this year. Some arrangement should be made to clean the school rooms more frequently. The floors, at least, should be washed every vacation. A nasty schoolroom is poor environment in which to teach that "Cleanliness is next to godliness." The school should typify the best homes of the community not only in the care it receives but also in its arrangement and equipment.

Whatever success the schools have achieved is due to the earnest efforts and loyalty of the teachers, the interest of the School Board, and the readiness of the parents and public to assist. This helpful spirit I have much appreciated,

Respectfully submitted,

NORMAN J. PAGE.

### REPORT OF THE SUPERINTENDENT OF SCHOOLS.

*To the School Board and Citizens of Bath Union School District:*

I herewith present my eleventh annual report.

The resignation of Mr. and Mrs. Parker and Miss Miss McCarty in June made it necessary to find three new teachers. Allan M. McCurdy was engaged as headmaster, Muriel Chamberlain as assistant, and Una A. Dearth as teacher in the primary room. Miss Sargent was promoted to the grammar room.

There are 27 pupils registered in the high school, 16 in the grammar room, and 35 in the primary room. To accommodate all of the primary pupils it has been necessary for the fourth grade to sit in the grammar room while the first and second grades were in school. It is some years since there were so many children in the building and it is a good omen for the community.

Margaret Houston and Lawrence Chase had a record of perfect attendance for the school year.

Doris Stimson and Norman Houston were promoted from the eighth grade to the high school. Hascall Stimson was the only graduate of the high school.

The school nurse, Miss Underhill, made the medical inspection in the fall term. She found that 34 cases had been treated since her last examination. There are still some quite serious defects of vision, teeth and adenoids which need attention, if the children are to have a fair chance. Miss Underhill has made 19 visits to the homes of these pupils for the purpose of explaining to the parents the need of treatment.

On approving the high school for 1921-22, Commissioner May again has only favorable comments. He

says, "In looking over the Work Reports of Bath High School I find the following especially commendable: (1) The fact that only 9% failed one course and that none of the pupils failed more than one course. (2) The reading of two books in excess of the standards in English IV and three books in excess of the standards in English V. (3) The reading of 253 pages in excess of the standards in French I."

I call your attention to the appended report of Headmaster McCurdy for details of the high school conditions. All of the teachers are doing good work. The spirit of the pupils is excellent from the primary to the high school. The community is generous in taxing itself for its schools. Under such conditions good results are sure to follow.

Respectfully submitted,

NORMAN J. PAGE.

## REPORT OF THE HEADMASTER.

To the Superintendent of Schools,

Sir:

I herewith tender my report as Headmaster of the Bath Union High School.

The Bath Union High School opened for the current school year Sept. 12, 1921. The total enrollment is 27 of which three have resigned, leaving the present number of students in attendance 24. There are 12 tuition students of which three are from Landaff.

The Senior class is the largest, which indicates a sustained interest rather infrequently found in larger public and private schools. The progress of the school is good. The pupils are very earnest and almost everyone coming in contact with them has commented on their courtesy to guests and one another.

I am gratified to be able to report that two-thirds of the school are reading Latin. I am one of the many who believe that the function of public education is not so much to turn out bookkeepers and stenographers, worthy and necessary as those vocations are, as to train the mind to solve the problems of life in whatever field of work the pupil may finally enter, and also to promote a keener appreciation along cultural lines.

Occasionally we hear from even our most loyal supporters that too much work is required of pupils at home. I can only say that the teachers are required to complete certain definite amounts of work by the State Board of Education. The Program of Studies under which we operate is prepared by those not only expert in education, but familiar with the limitations and capabilities of children of high school age.

A higher standard of work could be maintained if less manual work were required of some of the pupils

at home. A student cannot study to advantage during the day and evening if he is tired out physically. If he is going on to college he must compete with those who have given all their time to preparation, and if he is to stay at home, surely he can be spared four years at school with the minimum amount of farm duties.

I believe the town is facing a serious problem in the housing of its teachers. At present the village is fortunate in having two excellent local teachers, but such a condition is unusual and cannot be counted on as permanent. The teachers are as vital factors in a community as the minister and should have quarters worthy of their calling. It is very difficult to get first rate teachers to come into our small communities, and unless some definite arrangements are made in the near future to obviate teachers going from door to door begging for lodging and board, it will, in my opinion, be exceedingly difficult for this town to get outside teachers. I earnestly recommend a consideration of "Teacherages" working so successfully in the West.

The State Inspector of High Schools recently found the building in poor condition.

I have always found the Superintendent and School Board glad to co-operate with their support, especially in the granting of all necessary supplies.

The number of visitors at the school discloses the fact that there is a much greater interest in the school than for the past few years.

Respectfully submitted,

ALLAN M. McCURDY.

Total amount for all schools,	\$4,357.58		
School Board report of assessment required:			
For the support of all schools,	\$4,357.58		
For the payment of the \$2 tax,	128.00		
For the payment of interest and debt,	500.00		
For repairs and new equipment,	200.00		
For salary of officers and superintendent,	115.00		
	<hr/>		
	\$5,300.58		

Some report from the school board is expected at this time although it is the middle of the school year. The report of the schools is covered by the Superintendent and Headmaster. The school house has been shingled during the past year which makes the outside of the building in very good shape. Some money will be necessary for inside repairs another year as the wood furnace is in bad shape and some work must be done on the water supply. The budget calls for nearly the same amounts as last year, as the report will show.
